

EVERY CHILD DESERVES TO smile

smilezone Foundation is a registered charity committed to putting **SMILES on Kids' faces!**

Smilezone Foundation transforms hospital and healthcare spaces so they are comforting and fun for kids, helping to make tough days a little brighter!

Looking for a smilezone in your community?

OUR STORY

Founded in 2012 by Adam Graves and Scott Bachly, the Smilezone mission is simple: To make tough days a little brighter for kids receiving treatment in hospitals and health care facilities. We do this by creating fun and engaging "Smilezones" that harness the uplifting power of a smile for kids & their families. Smilezones can be installed in waiting rooms, treatment rooms, playrooms, or anywhere a child may be in need of a smile!

Visiting a Smilezone is something that a child can look forward to, helping to ease their anxiety of receiving treatment which can be scary and overwhelming. Our Smilezones provides a bright, fun, and uplifting space where kids can just being kids, no matter what circumstances they face!

Since 2013, Smilezone Foundation has transformed **200+ Zones** in hospitals, pediatric clinics, treatment centres, and other healthcare spaces in over 30 communities across Ontario!

Over 150,000 children & families touched

"My daughter is no stranger to hospitals. Having over a dozen surgeries, a rolodex of specialist appointments, and weekly therapies since she was born, waiting rooms are her playground. When Smilezone transformed the spaces my daughter knew, it was amazing to see the difference in her. The new spaces were fun, bright, and colourful, and gave her a space with so much more to do.

TARA Parent, Kingston General Hospital

CHILDHOOD ILLNESS

REHABILITATION

MENTAL HEALTH

ACCESSIBILITY

"My daughter looked up at the painting and smiled. She saw a character from her favourite book in a wheelchair, just like hers, on top of the world."

Parent, ErinoakKids Centre for Treatment & Development

"The Smilezone makeover is beautiful! The rooms are much more comfortable, and the colourful murals give us something positive to focus on. Our daughter's favourite part is the mermaid watching over her!"

Parent, Northeast Cancer Centre

Many of the children who visit a Smilezone have been in and out of treatment their whole lives. Having the opportunity to visit fun, kid-friendly Zones in healthcare facilities can make a world of difference to these children and their families
